Leader in Fluorescent Rubber Bands

ABOUT US

Kaniskaa Rubber Industries is a leading manufacturer of fluorescent rubber bands in India producing to very promising standards since 2008. We pride ourselves as a pioneer in rubber band manufacturing, technology and research.

We caters to all buyers large or small. Our bands are sold across India and exported across the globe. We cater to all major wholesalers and distributors in India.

Our rigorous Quality Control procedures and Total Quality Management enables quality and order purity at all times. We aspire to be the industry leader in rubber bands and believe in establishing enduring relationship with customers.

We take pride in our products and stand by it. Kansikaa Rubber Industries is a women led organization with 80% of staff being women.

PRODUCT FEATURES

Made of 100% Natural latex from Hevea Brasiliensis trees - Carefully hand crafted to rubber bands

Bio Degradable

Being made from pure latex from trees, our bands are 100% bio degradable and does not have extra anti dumping duties during for import

100% Natural

Bands are made of 100% Natural Rubber. Experience rubber bands in its purest form

Longer Shelf Life

Our research in rubber chemistry has resulted in bands with longer shelf life and anti oxidation characteristics. Optimum storing temperature is 8C to 40C. Store in shade

Fluorescent Colors

The bands are made of attractive fluorescent colors and are translucent.

700% Elongation

Our bands gives 7+ times the elongation.

Extra Strong

Our bands does not break with usage or force on normal use.

Resuable

Our bands are 100% resilient and regains original size after usage unlike most band in the world.

Made in India

Proud to say our bands are made in India, the 5th largest producer of natural latex in the world.
